AAPC Announcements

LESS THAN 30 DAYS UNTIL ICD-10 IMPLEMENTATION

With less than 30 days until ICD-10 implementation, AAPC urges all members to prepare for this critical healthcare update. The transition to ICD-10 will impact each role within your office. Find free implementation resources, including our on-demand ICD-10 webinar, ICD-10 implementation manual, and 30 ICD-10 action plan at aapc.com.

CONTACTING CHAPTER OFFICERS

In an effort to protect the privacy of our officers, we have limited the amount of personal information shown on aapc.com and have implemented a new contact process. When searching for officer contact information on AAPC local chapter web pages, individuals can choose which officer they would like to contact and submit their question/comment to the officer via web form. Chapter members will still have direct access to phone numbers and email addresses by logging in to AAPC's website, clicking on My Chapter, Officers and Representatives, and the Chapter Officers tab.

PASSPORT SAVINGS PROGRAM

AAPC will soon launch a new savings program to provide members additional discounts and deals on products, services, and more. Look for more information in an upcoming member newsletter.

Product Updates

2016 CODE BOOKS

Next year's ICD-10-CM and PCS books have arrived and will be shipped early September. Both are the official code set rather than the draft. Both have updates to coding guidelines and include improvements and enhancements requested by last year's users. Order today at aapc.com to ensure you receive them by the Oct 1 ICD-10 implementation date.

50% OFF ANY ADDITIONAL CERTIFICATIONS

AAPC members with existing certifications can receive 50 percent off any additional certification through September. View a complete list of certifications at aapc.com, on the 150,000 promotions page.
